

# European Federation of National Engineering Associations (FEANI)

## Secretary General – Job Description

---

The European Federation of National Engineering Associations - FEANI is a federation of professional engineers that unites all the national engineering associations from 30 European countries. Thus, FEANI represents the interests of over 3.5 million professional engineers in Europe. FEANI is striving for a single voice for the engineering profession in Europe and wants to affirm and develop the professional identity of engineers.

Due to retirement of the Secretary General, who has filled the position for the past 10 years, the position of Secretary General is open, and FEANI seeks to employ a highly motivated, dynamic and results-driven person.

The position requires the ability to understand complex business and political issues combined with strategic thinking and highly-developed networking, association management and communications skills.

More information about FEANI can be found on [www.feani.org](http://www.feani.org).

## Tasks of the Secretary General

---

The Secretary General will be responsible for the day-to-day business accordance with the decisions of the Executive Board and/or the President.

Day-to-day business includes in particular

- The management of the Secretariat in Bruxelles with responsibility for the recruitment and organisation of the staff, consisting of 4 people.
- Strategic networking at high level with European Institutions and other relevant stakeholders.
- Representation of FEANI in day-to-day dealings with the European Commission and authorities in Belgium in accordance with the guidelines specified by the Executive Board and/or the president
- Facilitating the Presidents meeting with decision makers such as Commissioners, high ranking EU-officials and influential MEPs
- Preparation and implementation of decisions by the Executive Board and the President
- Prepare and implement the budget in accordance with the decisions of the General Assembly and the Executive Board.
- Drafting proposals for relevant cross border engineering projects with financial support from external sources
- Preparation of meetings in the General Assembly, the Executive Board following consultation and agreement with the President
- Drafting and implementing a plan to make FEANI more visible in the media following consultation and agreement with the President
